Merit's GAAP gross margin for the third quarter of 2022 was 44.8%, compared to GAAP gross margin of 45.1% for the prior year period. Merit's non-GAAP gross margin\* for the third quarter of 2022 was 48.4%, compared to non-GAAP gross margin of 49.1% for the prior year period.

Merit's GAAP net income for the third quarter of 2022 was \$15.3 million, or \$0.27 per share, compared to GAAP net income of \$12.0 million, or \$0.21 per share, for the third quarter of 2021. Merit's non-GAAP net income\* for the third quarter of 2022 was \$37.0 million, or \$0.64 per share, compared to non-GAAP net income of \$30.2 million, or \$0.52 per share, for the prior year period.

"We delivered better-than-expected revenue results for the third quarter of 2022, posting 10.5% constant currency sales growth fueled by solid execution from our team and more favorable than anticipated demand trends from customers in the U.S., EMEA and APAC regions." said Fred P. Lampropoulos, Merit's Chairman and Chief Executive Officer. "We also delivered better-than-expected profitability in the quarter, with approximately 23% growth year-over-year in both non-GAAP net income and non-GAAP earnings per share, driven by the combination of our strong revenue results and continued benefits from our multi-year strategic initiatives related to the Foundations for Growth Program."

Mr. Lampropoulos continued: "Our updated guidance expectations for 2022 reflect continued confidence in our ability to drive solid constant currency revenue growth, improvements in our profitability profile and strong free cash flow generation in 2022. Overall, we continue to execute and are excited about the results we are seeing across our business. We remain committed to the financial targets that we outlined in the Foundations for Growth Program for the three-year period ending December 31, 2023, which call for our constant currency, organic revenue to increase at a CAGR of at least 5%, non-GAAP operating margins of at least 18% and cumulative free cash flow of more than \$300 million."

As of September 30, 2022, Merit had cash and cash equivalents of \$51.5 million, total debt obligations of \$216.9 million, and available borrowing capacity of approximately \$509 million, compared to cash, cash equivalents and restricted cash of \$67.8 million, total debt obligations of \$243.1 million, and available borrowing capacity of approximately \$490 million as of December 31, 2021.

#### Non-GAAP Financial Measures

Although Merit's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), Merit's management believes that certain non-GAAP financial measures referenced in this release provide investors with useful information regarding the underlying business trends and performance of Merit's ongoing operations and can be useful for period-over-period comparisons of such operations. Non-GAAP financial measures used in this release include:

- constant currency revenue;
- · constant currency revenue, organic;
- non-GAAP gross profit and margin;
- non-GAAP operating income and margin;
- non-GAAP net income;
- non-GAAP earnings per share; and
- · free cash flow.

Merit's management team uses these non-GAAP financial measures to evaluate Merit's profitability and efficiency, to compare operating and financial results to prior periods, to evaluate changes in the results of its operating segments, and to measure and allocate financial resources internally. However, Merit's management does not consider such non-GAAP measures in isolation or as an alternative to measures determined in accordance with GAAP.

Readers should consider non-GAAP measures used in this release in addition to, not as a substitute for, financial reporting measures prepared in accordance with GAAP. These non-GAAP financial measures generally exclude some, but not all, items that may affect Merit's net income. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which items are excluded. Merit believes it is useful to exclude such items in the calculation of non-GAAP earnings per share, non-GAAP gross profit and margin, non-GAAP operating income and margin, and non-GAAP net income (in each case, as further illustrated in the reconciliation tables below) because such amounts in any specific period may not directly correlate to the underlying performance of Merit's business operations and can vary significantly between periods as a result of factors such as acquisition or other extraordinary transactions, non-cash expenses related to amortization or write-off of previously acquired tangible and intangible assets, certain severance expenses, expenses resulting from non-ordinary course litigation or administrative proceedings and resulting settlements, corporate transformation expenses, governmental proceedings or changes in tax or industry regulations, gains or losses on disposal of certain assets, and debt issuance costs. Merit may incur similar types of expenses in the future, and the non-GAAP financial information included in this release should not be viewed as a statement or indication that these types of expenses will not recur. Additionally, the non-GAAP financial measures used in this release may not be comparable with similarly titled measures of other companies. Merit urges readers to review the reconciliations of its non-GAAP financial measures to the comparable GAAP financial measures, and not to rely on any single financial measure to evaluate Merit's business or results of operations.

#### Constant Currency Revenue

Merit's constant currency revenue is prepared by converting the current-period reported revenue of subsidiaries whose functional currency is a currency other than the U.S. dollar at the applicable foreign exchange rates in effect during the comparable prior-year period, and adjusting for the effects of hedging transactions on reported revenue, which are recorded in the U.S. dollar. The constant currency revenue adjustments of \$8.0 million and \$15.8 million to reported revenue for the three and nine-month periods ended September 30, 2022, were calculated using the applicable average foreign exchange rates for the three and nine-month periods ended September 30, 2021.

#### Constant Currency Revenue, Organic

Merit's constant currency revenue, organic, is defined, with respect to prior fiscal year periods, as GAAP revenue. With respect to current fiscal year periods, constant currency revenue, organic, is defined as constant currency revenue (as defined above), less revenue from certain acquisitions. For the three and nine-month periods ended September 30, 2022, there were no revenues from acquisitions excluded in the calculation of Merit's constant currency revenue, organic.

#### Non-GAAP Gross Profit and Margin

Non-GAAP gross profit is calculated by reducing GAAP cost of sales by amounts recorded for amortization of intangible assets and certain inventory write-offs. Non-GAAP gross margin is calculated by dividing non-GAAP gross profit by reported net sales.

#### Non-GAAP Operating Income and Margin

Non-GAAP operating income is calculated by adjusting GAAP operating income for certain items which are deemed by Merit's management to be outside of core operations and vary in amount and frequency among periods, such as expenses related to acquisitions or other extraordinary transactions, non-cash expenses related to amortization or write-off of previously acquired tangible and intangible assets, certain severance expenses, performance-based stock compensation expenses, corporate transformation expenses, expenses resulting from non-ordinary course litigation or administrative proceedings and resulting settlements, governmental proceedings or changes in industry regulations, as well as other items referenced in the tables below. Non-GAAP operating margin is calculated by dividing non-GAAP operating income by reported net sales.

#### Non-GAAP Net Income

Non-GAAP net income is calculated by adjusting GAAP net income for the items set forth in the definition of non-GAAP operating income above, as well as for expenses related to debt issuance costs, gains or losses on disposal of certain assets, changes in tax regulations, and other items set forth in the tables below.

#### Non-GAAP EPS

Non-GAAP EPS is defined as non-GAAP net income divided by the diluted shares outstanding for the corresponding period.

#### Free Cash Flow

Free cash flow is defined as cash flow from operations calculated in accordance with GAAP, less capital expenditures for property and equipment calculated in accordance with GAAP, as set forth in the consolidated statement of cash flows.

#### Non-GAAP Financial Measure Reconciliations

The following tables set forth supplemental financial data and corresponding reconciliations of non-GAAP financial measures to Merit's corresponding financial measures prepared in accordance with GAAP, in each case, for the three and nine-month periods ended September 30, 2022 and 2021. The non-GAAP income adjustments referenced in the following tables do not reflect non-performance-based stock compensation expense of approximately \$3.2 million and \$3.2 million for the three-month periods ended September 30, 2022 and 2021, respectively and \$9.3 million and \$7.6 million for the nine-month periods ended September 30, 2022 and 2021, respectively.

#### **NON-GAAP FINANCIAL MEASURES**

Although Merit's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), Merit's management believes that certain non-GAAP financial measures provide investors with useful information regarding the underlying business trends and performance of Merit's ongoing operations and can be useful for period-over-period comparisons of such operations. Certain financial measures included in this presentation, or which may be referenced in management's discussion of Merit's historical and future operations and financial results, have not been calculated in accordance with GAAP, and, therefore, are referenced as non-GAAP financial measures. Readers should consider non-GAAP measures used in this presentation in addition to, not as a substitute for, financial reporting measures prepared in accordance with GAAP. These non-GAAP financial measures generally exclude some, but not all, items that may affect Merit's net income. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which items are excluded. Additionally, non-GAAP financial measures used in this presentation may not be comparable with similarly titled measures of other companies. Merit urges readers to review the reconciliations of its non-GAAP financial measures to the comparable GAAP financial measures, and not to rely on any single financial measure to evaluate Merit's business or results of operations. Please refer to "Notes to Non-GAAP Financial Measures" at the end of these materials for more information.

#### **Notes to Non-GAAP Financial Measures**

For additional details, please see the accompanying press release and forward-looking statement disclosure.

These presentation materials and associated commentary from Merit's management, as well as the press release issued today, use non-GAAP financial measures, including:

- · constant currency revenue;
- · constant currency revenue, organic;
- · non-GAAP gross profit and margin;
- non-GAAP operating income and margin;
- · non-GAAP net income:
- non-GAAP earnings per share; and
- · free rash flow

Merit's management team uses these non-GAAP financial measures to evaluate Merit's profitability and efficiency, to compare operating and financial results to prior periods, to evaluate changes in the results of its operating segments, and to measure and allocate financial resources internally. However, Merit's management does not consider such non-GAAP measures in isolation or as an alternative to measures determined in accordance with GAAP.

Readers should consider non-GAAP measures used in this presentation in addition to, not as a substitute for, financial reporting measures prepared in accordance with GAAP. These non-GAAP financial measures generally exclude some, but not all, items that may affect Merit's net income. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which items are excluded. Merit believes it is useful to exclude such items in the calculation of non-GAAP earnings per share, non-GAAP gross profit and margin, non-GAAP operating income and margin, and non-GAAP net income (in each case, as further illustrated in the reconciliation tables below) because such amounts in any specific period may not directly correlate to the underlying performance of Merit's business operations and can vary significantly between periods as a result of factors such as acquisition or other extraordinary transactions, non-cash expenses related to amortization or write-off of previously acquired tangible and intangible assets, severance expenses, expenses resulting from non-ordinary course litigation or administrative proceedings and resulting settlements, corporate transformation expenses, governmental proceedings or changes in tax or industry regulations, gains or losses on disposal of certain assets, and debt issuance costs. Merit may incur similar types of expenses in the future, and the non-GAAP financial information included in this presentation should not be viewed as a statement or indication that these types of expenses will not recur. Additionally, the non-GAAP financial measures used in this presentation may not be comparable with similarly titled measures of other companies. Merit urges investors and potential investors to review the reconciliations of its non-GAAP financial measures to the comparable GAAP financial measures, and not to rely on any single financial measure to evaluate Merit's business or results of operations.

### Notes to Non-GAAP Financial Measures (cont.)

#### Constant Currency Revenue

Merit's constant currency revenue is prepared by converting the current-period reported revenue of subsidiaries whose functional currency is a currency other than the U.S. dollar at the applicable foreign exchange rates in effect during the comparable prior-year period, and adjusting for the effects of hedging transactions on reported revenue, which are recorded in the U.S. The constant currency revenue adjustments of \$8.0 million and \$15.8 million to reported revenue for the three and nine-month periods ended September 30, 2022, were calculated using the applicable average foreign exchange rates for the three and nine-month periods ended September 30, 2021.

#### Constant Currency Revenue, Organia

Merit's constant currency revenue, organic, is defined, with respect to prior fiscal year periods, as GAAP revenue. With respect to current fiscal year periods, constant currency revenue, organic, is defined as constant currency revenue (as defined above), less revenue from certain acquisitions. For the three and nine-month periods ended September 30, 2022, there were no revenues from acquisitions excluded in the calculation of Merit's constant currency revenue, organic.

#### Non-GAAP Gross Profit and Margin

Non-GAAP gross profit is calculated by reducing GAAP cost of sales by amounts recorded for amortization of intangible assets and certain inventory write-offs. Non-GAAP gross margin is calculated by dividing non-GAAP gross profit by reported net sales.

#### Non-GAAP Operating Income and Margin

Non-GAAP operating income is calculated by adjusting GAAP operating income for certain items which are deemed by Merit's management to be outside of core operations and vary in amount and frequency among periods, such as expenses related to acquisitions or other extraordinary transactions, non-cash expenses related to amortization or write-off of previously acquired tangible and intangible assets, certain severance expenses, performance-based stock compensation expenses, corporate transformation expenses, expenses resulting from non-ordinary course litigation or administrative proceedings and resulting settlements, governmental proceedings or changes in industry regulations, as well as other items referenced in the tables below. Non-GAAP operating margin is calculated by dividing non-GAAP operating income by reported net sales.

### Notes to Non-GAAP Financial Measures (cont.)

Non-GAAP Net Income

Non-GAAP net income is calculated by adjusting GAAP net income for the items set forth in the definition of non-GAAP operating income above, as well as for expenses related to debt issuance costs, gains or losses on disposal of certain assets, changes in tax regulations, as well as other items set forth in the tables below.

Non-GAAP EPS

Non-GAAP EPS is defined as non-GAAP net income divided by the diluted shares outstanding for the corresponding period.

Free Cash Flow

Free cash flow is defined as cash flow from operations calculated in accordance with GAAP, less capital expenditures for property and equipment calculated in accordance with GAAP, as set forth in the consolidated statement of cash flows.

Other Non-GAAP Financial Measure Reconciliation

The following tables set forth supplemental financial data and corresponding reconciliations of non-GAAP financial measures to Merit's corresponding financial measures prepared in accordance with GAAP, in each case, for the three and nine-month periods ended September 30, 2022 and 2021. The non-GAAP income adjustments referenced in the following tables do not reflect non-performance-based stock compensation expense of \$3.2 million and \$3.2 million for the three-month periods ended September 30, 2022 and 2021, respectively, and \$9.3 million and \$7.6 million for the nine-month periods ended September 30, 2022 and 2021, respectively.
